**Pre-Owned, Yet Virtually Brand New** When you invest in a MECTEC Certified Pre-Owned Tower Crane or Construction Hoist, you're not just acquiring used equipment – you're gaining access to machinery that has undergone an exhaustive inspection and reconditioning process. We don't merely expect you to take our word for it; we stand behind our [...]

**Pre-Owned, Yet Virtually Brand New :** When you invest in a MECTEC Certified Pre-Owned Tower Crane or Construction Hoist, you're not just acquiring used equipment – you're gaining access to machinery that has undergone an exhaustive inspection and reconditioning process. We don't merely expect you to take our word for it; we stand behind our assurance with an industry-leading extended coverage plan designed to safeguard both your investment and your peace of mind.

**Thorough Inspection Process :** Before becoming a part of our esteemed inventory, every pre-owned machine undergoes a meticulous top-to-bottom, inside-and-out inspection. This process ensures that each component is scrutinized for quality and functionality.

**Comprehensive Reconditioning :** Following inspection, each machine goes through a standard reconditioning process (excluding painting). Components are meticulously repaired or replaced, with some even upgraded to incorporate cutting-edge technology.

**MECTEC Certification :** Every step of the inspection and reconditioning processes is carried out by MECTEC-certified technicians and chartered engineers, ensuring the highest standards of quality and reliability.

**Investment Protection :** We stand by our commitment to quality by offering the option of the MECTEC Protection extended coverage plan. With this optional plan, you can confidently take your equipment into the field, secure in the knowledge that your investment is covered.

**Additional Chartered Engineer Inspection :** Following the initial inspections, all machines undergo a final inspection by chartered engineers to ensure an extra layer of quality assurance.

**120+ Point Inspection and Reconditioning :** Our certified technicians conduct thorough inspections, meticulously examining your crane/hoist at over 120 different points. Each machine is reconditioned to be as close to “good-as-new” as possible.

**Peace of Mind, Point by Point :** Enjoy the confidence that comes with knowing our certified technicians have not only inspected your crane/hoist at over 120 different points but have also reconditioned it to virtually brand-new condition. For a detailed list of available equipment, please contact us via email or phone for more information.
